Subject: Permanent Confidentiality Request for FCC ID: URG21120

Dear Sir or Madam:

RadarFind Corporation respectfully requests that the following documents accompanying this application:

- Theory of Operation / Technical Description
- Circuit Schematics
- Bill of Materials / Parts List
- Block Diagram
- Tune-Up Procedure
- Interior Assembly Photographs

be made permanently confidential and withheld from public disclosure, in accordance with 47 CFR 0.457(d) and 47 CFR 0.459. These documents contain trade secrets, the public disclosure of which would put RadarFind at a competitive disadvantage. RadarFind has spent substantial effort in developing this product and it is technologically unique in the industry. Having the subject information easily available to "competition" would negate the advantage we have achieved by developing this product. Not protecting the details of the design will result in financial hardship. Photographs of the interior of the product are especially sensitive. The product is ultrasonically welded shut; no access to or view of the circuitry, or the proprietary board layout, is possible without destructive disassembly.

Sincerely,

Stephen C. Snell, Hardware Manager RadarFind Corporation
